Detalles de la Propiedad

Título:	Parasailing & Adventure Watersports Business
Descripción:	<p>Ever dream of spending your days on the beach AND making money at the same time! NOW IS YOUR CHANCE. Most tourism-related businesses that are being sold are underperforming operations whose owners have tried to make a dream in paradise work and are looking to get out due to lack of success. This VERY SUCCESSFUL and HIGHLY REPUTABLE parasailing, banana boat and adventure tour business is a consolidated turn-key business with years of proven profitability, a great inventory of boats, jet skis, parachutes, safety equipment, a database of clients and a reputation (based on over 10 years!) as the finest operation anywhere on the Central Pacific. Aguas Azules Parasailing & Watersports is a family-run operation that has offices located in Marina Pez Vela as a central base of operations and offers tours out from their location at the Marina Pez Vela as well as from the company's location on the main public beach in Manuel Antonio. The business has seen year after year growth since its creation by its founders and has been priced to sell at a great value for an investor or operator who can walk right into a profitable eco-tourism business. There is also GREAT expansion potential with the brand and experience to other areas of Costa Rica and into additional water sports / eco-tourism activities as the tourism in this part of Costa Rica continues to grow exponentially. Enquire now for details and the current owners are available for training and transition to ensure the success and integrity of the brand they have worked so hard to build over the years. ONE OF A KIND OPPORTUNITY in paradise!</p>

¡Sueña con pasar tus días en la playa y ganar dinero al mismo tiempo! AHORA ES TU OPORTUNIDAD. La mayoría de las empresas relacionadas con el turismo que se venden son operaciones de bajo rendimiento cuyos propietarios han tratado de hacer que un sueño en el paraíso funcione y están buscando salir debido a la falta de éxito.

Precio: \$ 599,000

Baños: 1

m² de construcción: 1
